

MichiCANS Supervisor Community of Practice Meetings

The Michigan Capacity Building Center (CBC), through MDHHS, will offer virtual MichiCANS Supervisor Community of Practice (SCoP) Meetings.

These virtual sessions are for clinical supervisors at a CCBHC, PIHP, CMHSP, or an agency that contracts with one of these organizations, who directly oversee the clinical use of the MichiCANS.

These meetings are for clinical supervisors and provide the opportunity to come together in a learning community with a focus on building practical skills to support meaningful use of the MichiCANS across the state and at the organizational level.

MichiCANS SCoP sessions are offered two times each month. Every month will feature a different topic. Since the topic will be the same for each of the two sessions offered in a given month, we encourage you to **attend one session per month** all year long to share with and learn from your colleagues!

If you have any questions or need assistance, please email the Michigan Capacity Building Center at:
